Krzysztof Czarnecki

Junior IT Support / Cybersecurity

Pruszcz Gdański, Poland · krzysztof.c.tech@gmail.com
github.com/Blackecki · linkedin.com/in/krzysztofczarnecki

PROFILE

Technical secondary school graduate with practical Windows/Linux, virtualization and networking experience from a home lab. Passed INF.03. Developing skills for junior IT support and cybersecurity roles through personal projects and Google cybersecurity coursework.

TECHNICAL FOUNDATIONS

Systems and support: Windows, Linux, virtual machines, software installation and configuration, hardware and software troubleshooting.

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS, LAN and connection diagnostics.
Programming and tools: Python, C#, SQL, Git, Linux terminal and Nmap.

PROJECTS

Home lab and ThinkPad firmware

Run a Raspberry Pi homelab with Pi-hole and work with Windows/Linux virtual environments. Installed coreboot on a personal ThinkPad using a Raspberry Pi and the Skulls project's instructions.

Cryplab · GitHub

Develop a Python command-line project for learning encryption and hashing, including text and file processing.

Retro Forum · GitHub

Develop a web forum and explore authentication, authorization and user-data handling as part of learning application security.

Cybersecurity coursework · Portfolio

Prepared reports on phishing, DNS/ICMP failures and SYN flood scenarios. Documented evidence, investigation limitations and the rationale for escalation. Educational exercises.

EXPERIENCE

H2B, Gdańsk · School placements

March-April 2024; March-April 2025

Supported office operations through document handling, printing and administrative tasks. Worked with staff to complete assigned tasks and participated in training.

Additional experience: warehouse and merchandising work, including preparation of reports.

EDUCATION AND TRAINING

Pomorskie Szkoły Rzemiosł · Technical secondary school · 2026

Completed the programming track. Passed INF.03: creating and administering websites and databases.

Google Cybersecurity Professional Certificate

Final stage, in progress. Coursework includes Linux, SQL, Python, networking and security operations.

LANGUAGES AND ADDITIONAL INFORMATION

Polish: native · English: B2 · Category B driving licence
Available for on-site work and occasional business travel.
