PROFILE

Programming-track graduate with INF.03 and hands-on Windows/Linux experience from a home lab. Configured Pi-hole, installed coreboot on a ThinkPad and built Python tools for hashing and encryption. Seeking a first IT support role, with a focus on systems, networking and security.

SELECTED PROJECTS

Home lab & firmware installation

- Configured Pi-hole on a Raspberry Pi; used Windows/Linux virtual environments to practise system setup and troubleshoot network and service issues.
- Installed coreboot on a personal ThinkPad using a Raspberry Pi, following the Skulls project's flashing instructions.

Cryplab — Python cryptography learning tool · Source code

- Implemented SHA-256 hashing for text and files, with chunked file reads, plus AES-256-GCM text encryption using the cryptography library.
- Added random nonce generation, Base64 output and key export to the command-line workflow.

Retro Forum — Next.js web application · Source code

- Developed login handling with bcrypt password checks, JWT sessions and per-IP and per-account attempt limits, backed by Prisma/SQLite.

Incident analysis — Google course exercises · Read case studies

- Documented phishing triage, DNS/ICMP failures and SYN flood scenarios; separated evidence from hypotheses and explained escalation and follow-up steps.

TECHNICAL SKILLS

Systems: Windows, Linux, virtual machines, software installation, hardware/software troubleshooting.
Networks: TCP/IP, DNS, DHCP, HTTP/HTTPS, LAN diagnostics, Pi-hole.
Code & tools: Python, SQL, Git, Linux terminal; C# and Nmap fundamentals.

EXPERIENCE

H2B, Gdańsk · School placements

March-April 2024; March-April 2025

Handled documents, printing and day-to-day administrative tasks during school placements.

Additional experience: warehouse and merchandising work, including preparing reports.

EDUCATION AND TRAINING

Pomorskie Szkoły Rzemiosł · Technical secondary school · 2026

Programming track completed. **INF.03 passed:** creating and administering websites and databases.

Google Cybersecurity Professional Certificate

Final stage, in progress. Linux, SQL, Python, network security and incident analysis.

LANGUAGES AND ADDITIONAL INFORMATION

Polish: native · English: C1 · Category B driving licence
Open to on-site work and occasional business travel.
